01 · HOW IT WORKS

Three things to know

MESSAGE THE BUSINESS NUMBER

From your own WhatsApp, the same number you chat with the founders on. Type a command and send it.

ONLY YOUR TASKS

You see and complete only tasks assigned to you. Normal chat gets no reply from the bot.

ONCE A DAY, EVERY DAY

Send `my tasks` each morning. It keeps your reminders working.

02 · COMMANDS

Six commands, that's all

SEND

YOU GET

my tasks

Your open tasks, numbered: ⚠ overdue, 📌 due today, ➡️ upcoming. 💬 means the task has a brief.

3

The brief for task 3: Drive links, caption, slide text and the PM's comments.

done masala

masala done

Marks the task complete in ClickUp. If several tasks match, the bot asks which one.

done 2, 3

Completes tasks 2 and 3 from your last **my tasks** list.

undo

Reopens what you just completed, within 10 minutes.

help

Shows these commands.

Capitals don't matter and spelling is forgiving: `wetutor` finds "WeeTutor".

FROM THE FOUNDERS /remind sagun

When a founder or the PM sends */remind*, you get your tasks due today. Reply **OK**.

04 · GOOD TO KNOW

The rules

- **Deadlines are UK time.** “Due today” means by the end of today in the UK. Messages show Nepal time too, e.g. *6:00 PM UK (10:45 PM Nepal)*.
- **Marking done is recorded.** ClickUp gets a note: “Marked complete by Sagun via WhatsApp”, and the founders and PM are told.
- **Numbers expire.** A list is valid for 30 minutes and a “which one?” question for 10. After that, send `my tasks` again.
- **Posting by hand?** For FavSpot, Mannis and Damasqino, tick the task (`done ...`) as soon as it's posted. That's how the founders know it went out.
- **No reply?** Check it's the business number, then ask the PM.
